How to put together a rival meat slicer 1101e manual

Always use the food pusher to hold the food against the blade on the sliding tray. Chill deli type meats and cheeses before slicing for more uniform slices. Allow hot meats such as roasts to stand for 15 to 20 minutes before slicing. When slicing large or foods not uniform in size, start with the largest side first. The Rival 1101E-2 is a heavy-duty professional meat and cheese slicer that is no longer manufactured. Made of chromed steel, the slicer weighs approximately 12 lbs. and can handle any type of boneless meat or large blocks of cheese. The blade can be positioned to slice deli thin or as thick as desired. Ensure that all parts of the slicer are there before you attempt assembly. Necessary parts include the blade, blade holder, spring screw, feeder tray and food press. Place the slicer base on a flat, even surface. Attach the sliding feeder tray to the rails of the slicer, pressing firmly so the plastic tabs lock into place. Place the slicer blade into the blade holder indentation on the back of the slicer. Press the blade holder into the indentation on the blade. Secure the blade into place by inserting the spring screw through the back of the blade housing and tightening the screw into place. Plug the electric cord into an electrical outlet. Place the meat or cheese on the sliding feeder tray. Turn on the machine by sliding the black button on the motor assembly forward. Slide the meat or cheese toward the blade, using the food press. Adjust the thickness using the knob on the back of the blade assembly. Item discovered at ebay.com See more similar items -- "Cymru Llewes" wrote in message I have a Rival food slicer which is quite a number of years old - Model 1101E. Some years ago, I lost the original "Instruction and Idea Book", so called them on the phone for a replacement. The little manual cites a Customer Relations Department phone: 1-800-624-4693. The numbers I called were (Kansas City) 1-816-861-1000, with Parts and Service being 1-816-826-6600. Perhaps one of those numbers can help. If my model matches yours, or if you have Model 1030V, let me know and I can list the parts of the slicer(s). In that way, you can see if anything is missing. I'd scan and e-mail to you, but the print is so tiny I'm not sure it would reproduce well. Good luck! Dora
